- Seat belts            3-point factory installed seatbelts: The need to function.  
                          4 point or more safety belts: Inspection in mounting position.
- Engine:                Car is not allowed to leak oil or coolant.
- Exhaust:              Stock exhausts of street legal cars should be fine. We advice to switch OFF sport exhaust / sound muffler buttons. Modified exhaust could be too loud. Too loud exhausts could be banned. We cannot measure the sound levels of your car prior to this event. In the ClubSport class we have a maximum of 89 dB. In the RennSport class we have a maximum of 92 dB. This is measured at one point, 15 meters from the track. Once you exceed the sound limits on the track you will receive one (1) warning. You either have to adjust your revs while driving and therefore reduce the sound or make an adjustment to your exhaust. The second time you exceed the sound limits you could be disqualified for the rest of the event. There will be no refund of registration or instruction fee if this would occur.
- Windows              Should be closed while driving
- Interior                No items that could fly around. Clear out your interior completely.
- General:               Your car should never be a danger for you or other drivers.

### LIABILITY

You and your car are normally not insured for any liability when driving on a racetrack. When damaging the racetrack these costs will be forwarded to you.
